**Importance:** High

Hi Holly,

Per Lilian's email, thank you for submitting the Northrop Grumman Systems Corporation (NGSC) Revised Vapor Intrusion Work Plan Addendum #3, dated of February 2, 2023 (attached). While Lilian is out of the office, I will be assisting with the coordination of the project, document review, and field work. Because I know that scheduling the referenced fieldwork will require coordination of several stakeholders, I wanted to notify you that the attached work plan addendum will also require the approval of our Quality Assurance Branch Manager, Audrey L. Johnson (copied on this email) before the fieldwork can be conducted.

Audrey's team is currently reviewing the work plan addendum and you can expect a revised approval letter with her signature or a comment letter with comments from the QA office.

Please let me know if you have any questions.

Thank You

Holly,

Thank you for submitting the Northrop Grumman Systems Corporation (NGSC) Revised Vapor Intrusion Work Plan Addendum #3, dated of February 2, 2023 (attached). The revised plan satisfactorily addressed EPA's comments provided in the letter dated of December 6, 2022; and provided in the emails dated of January 20 and 23, 2023.

The revised plan is approved, attached is the approval letter. Please proceed with scheduling the field sampling event and coordinating with EPA for oversight.

Sincerely,

Lilian Abreu, PhD
